RESEARCH SUMMARY

To date, I have authored 18 publications, primarily focusing on AI fairness, face verification systems, AI at the edge, and NSFW/disturbing content detection in computer vision systems. My PhD research has resulted in 9 publications, including 7 first-author papers, two of which appeared in top-tier venues, i.e., IEEE International Conference on Computer Vision (ICCV) and IEEE Transactions on Pattern Analysis and Machine Intelligence (TPAMI). Also, I serve as a reviewer to top-tier venues, such as NeurIPS and ACM Multimedia.
